

This slightly sweeter white wine is made from the Vidal grape. This hearty hybrid grape is typically prepared as an ice wine, however we decided to sweeten ours to 5% residual sugar.

Vida Freas was Steph's great-grandmother. Steph enjoys telling the story of how Gram Vida would send her and her sister out into the yard with brown paper bags to pick dandelions. Steph often wondered where the flowers would go because there never were any dandelion bouquets gracing what is now our tasting room. Let's just say, we are not the first winemakers occupying the Freas Farm homestead! Proudly continuing what Gram Vida started decades ago!
