

A blend of apples picked at the peak of their perfection is the basis of the wine made from 100% apple juice.

During the Great Depression, Pap Buck, better known as Boyd Freas, would barter with the locals of the Village of Summerhill. Frequently, he was offered apple seeds in exchange for products from his 20 acre working farm. Pictured on our label is what remains today from the original row of 16 apple trees that split the fields at the top of the knoll on the farm. Thanks to Pap Buck, giving back to the community has been at the Core of Our Existence for nearly 50 fifty years.
